

# NAVIGATING LEADERSHIP IN THE FLIGHT DECK

Our day-long leadership workshop empowers pilots to **enhance safety, increase efficiency, and confidently resolve conflicts in the flight deck.**

## Lead The Skies

Aviation requires more than just technical flying skills. Professional pilots must also embody leadership qualities among their crew, commanding adaptability within the flight deck. Our workshop is crafted to thoroughly equip pilots like yourself with a wealth of knowledge and practical tools, empowering you to land your full leadership potential.

## Your Personal Autopilot

Just like autopilot assists you when flying, DiSC® Catalyst will assist you as your personal autopilot with navigating your people skills, leadership styles, and ability to adapt to situations with accuracy and confidence. This tool will be used to guide our discussion throughout the workshop.

### Details

1-Day Workshop

\$699 CAD
